PROFILE

Founder and builder who has done the compliance work behind two Ghanaian ventures himself, and is formalizing it into governance, risk and compliance (GRC). Built and runs GrabAm, a live mobile-money marketplace, with production controls for data protection, access control, audit and recovery. Drafted an MoU and institutional proposals for five government bodies through Siryn Technologies.

EXPERIENCE

Founder — GrabAm 2026 – present

Peer-to-peer marketplace and GrabAm Trade (item-for-item swaps), a Siryn Technologies Limited venture · grabam.com · trade.grabam.com

- Built the full product without a development team, using AI-assisted development (Claude Code): React, Supabase (Postgres), Vercel serverless API, Moolre mobile money payments, payouts and refunds, Cloudinary, Resend.
- Designed held payments with seller payouts after delivery, disputes, refunds, a wallet, offers, auctions, buyer requests, an admin and moderation panel, and an AI shopping assistant.
- Implemented production controls: privacy policy written against Ghana's Data Protection Act, 2012 (Act 843); personal data scrubbed from error logs; deny-by-default database access tested as real users; an audit trail of admin actions; a numbered change log; nightly encrypted backups with a monthly restore drill.
- Designed KYC-informed onboarding (phone verification, mobile money name matching checked on the server) after researching the Anti-Money Laundering Act, 2020 (Act 1044); evaluated escrow licensing under the Payment Systems and Services Act, 2019 (Act 987).
- Public launch October 2026, live with real mobile money payments, seller payouts, refunds and disputes.
- Ran a multi-channel user acquisition campaign for a national startup competition (custom web app, QR-coded print materials, cross-partner promotion).

Founder & CEO — Siryn Technologies Limited 2025 – present

Emergency dispatch coordination platform for Ghana's emergency services (in development) · siryntechnologies.com

- Registered and lead the company.
- Drafted a Memorandum of Understanding and formal institutional proposals addressed to the Ghana Police Service, Ghana National Fire Service, National Ambulance Service, Ministry of Health and National Communications Authority.
- Led meeting preparation and follow-up with the National Communications Authority, turning technical material into documents non-technical officials could act on.
- Drafted a patent application covering the platform's core dispatch mechanism.

Acting Manager — Kuzembela Auto Parts Enterprise Feb 2025 – Oct 2025

- Ran daily operations, supervised staff, and managed customer relationships and business records.

Administrative & ICT Support Assistant — Amanase Senior High School Nov 2023 – Oct 2024

- National Service. Provided IT and administrative support and kept school records accurate.

Intern — Ministry of Gender, Children and Social Protection Sept 2022 – Nov 2022

- Supported fieldwork on children's sexual health advocacy; collected and analysed data used in policy reports.

Volunteer — Adanu Foundation (NGO), Nigeria Apr 2019 – Jun 2019

- Supported fundraising, donation distribution and community health outreach.

EDUCATION & TRAINING

BA in Humanities (Political Science & Classical Studies) — University of Ghana, Legon 2019 – 2023

WASSCE — Bishop Herman College, Volta Region 2016 – 2019

In progress: Google Cybersecurity Certificate; ISC² Certified in Cybersecurity (CC). **Data science track** (since October 2025): Python, SQL, R, statistical inference, machine-learning foundations.
